

Switching to State Bank is easy!

1. Open Your New Accounts

Your new State Bank checking or savings account opens the door to a number of benefits. Complete the New Account Information form and ask to speak with a State Bank customer service representative. He or she will take care of setting up your account(s). We'll even order your new checks. Photo identification is required when you open new accounts.

2. Change Direct Deposits

To switch any direct deposits you may have set up with your employer or the company handling your retirement or pension payments, complete the Change Direct Deposit form. A State Bank customer service representative will take care of the rest. Be sure to include a voided check (most companies require it to verify your account number).

3. Change Automatic Withdrawals

Next you'll need to contact the companies and financial institutions with which you have established automatic withdrawals. Complete the Change Automatic Withdrawal form, and a State Bank customer service representative can take care of the rest. Be sure to include a voided check (most companies require it to verify your account number).

4. Close Your Accounts

Leave your old accounts open long enough for outstanding checks and automatic withdrawals to clear, with enough money in the account to cover transactions. Once the accounts are no longer active, send your former financial institution the enclosed form and request the balance from the accounts. Finally, destroy old checks, ATM/debit cards and deposit slips.

The enclosed forms are intended to help you streamline the changeover process as a new account holder with State Bank. If you need help completing them, please contact us.

In order to change your direct deposit and automatic withdrawals, you will need to know the bank routing numbers and account numbers from your former financial institution and State Bank.

The bank routing number is the first nine digits of the series printed on the bottom of your checks. State Bank's routing number is 041203594. The account number is the next series of numbers, followed by the check number.

Sound advice. Smart money.
